

## RVYC LIVE WEATHER STATION

To view live wind and weather from our station positioned at the Beach Bar, visit <http://www.pakkers.net/weather/pattaya/>. The data updates every 3 seconds.

## HOWEVER..

The Weather Station requires Adobe Flash player, software which most phones and tablets will not allow you to play, therefore, you'll need to download a Flash Player app found in your Applications Store (eg. App Store or Google Play). We recommend using Puffin Web Browser.

## INSTRUCTIONS:

- 1) Enter into your App Store
- 2) Go into find/search, and type Puffin Web Browser
- 3) Click download. The App is free of charge.
- 4) Once downloaded, open the Application
- 5) At the top of the App, type the Weather Station Address and click 'Go' or 'Enter'. Make sure you bookmark the page.

## ENJOY!

If you have questions or difficulties please don't hesitate to ask us, we're happy to help!

Thank you to Craig Chandler who kindly donated the RVYC Weather Station
